NOTES

GENERAL

All dimensions are shown in cm unless otherwise specified. Drawings are not to scale. Only figured dimensions to be used. The contractor must check and verify all dimensions on site before commencement of any work.

CONSTRUCTION

All slabs at ground level to be poured over 1000 gauge polythene sheeting on 2cm thick blinding on hardcore. All soil under slabs and around external foundation to be poisoned for termite control.

CIVIL

All soils on cut embankment to be stabilized. The slope not to exceed the natural angle of repose.

STRUCTURAL

All soil on cut embankment to be stabilized. The slope not to exceed paved surfaces.

For all R.C. works refer to drawing details.
